The MAILING DATE of this communication appo Period for Reply	ears on the cover sheet with the c	orrespondence address				
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3641

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, drawn to method for targeting hunting or sports weapons.

Group II, claim(s) 2-12, drawn to an adjusting bench.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention listed as Group I does not require an omnidirectionally swiveling, at first, and lockable, subsequently, support for the a weapon, in which support the weapon can be fixed, characterized in that there rough adjustment is performed at the fixing.

.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Art Unit: 3641

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 04/03/2006 has been considered by the examiner.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the photographs are unclear. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Specification

3. The amendment filed 09/15/2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The additional subject matter does not appear to have support in any of the original drawings or specification.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it

Art Unit: 3641

pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

- 5. Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The additional subject matter does not appear to have support in any of the original drawings or specification.
- 6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 7. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.
- 8. With respect to claim 1, it is not known what is meant or encompassed by the phrase "a shooting position commonly used by the shooting person."
- 9. With respect to claim 1, it is not known what is meant or encompassed by the phrase "a known type of ammunition."
- 10. With respect to claim 1, it is not known what is meant or encompassed by the phrase "being set up in the stand area." Which stand area is the applicant referring to?

Art Unit: 3641

11. With respect to claim 1, it is not known what is meant or encompassed by the phrase "roughly adjusted."

- 12. Claim 1 recites the limitation "the finely adjusted position." There is insufficient antecedent basis for this limitation in the claim.
- 13. The language of claim 2 is completely unintelligible. What does "where the auxiliary device includes an omnidirectionally swiveling, at first, and a lockable, subsequently" mean? What does "characterised in that there rough adjustment is performed at the fixing" mean?
- 14. With respect to claim 3, what does "characterized in that this is constituted" mean? What is being referred to?
- 15. The above list of examples is not exhaustive. The majority of the claims is indefinite and should be re-written to correspond to US patent practice. Claims should also be amended so that "comprising" or "consisting of" is used rather than the foreign phrase "characterized in that".

Claim Rejections - 35 USC § 102

16. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 17. In view of the indefinite nature of the claims as discussed above, claims 1-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by DE 6610785 issued to Klaes and is described in applicant's BACKGROUND OF THE INVENTION.
- 18. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by any one of US 5778589 issued to Teague, US 6526687 issued to Looney, US 5070636 issued to Mueller

Art Unit: 3641

and US 5081783 issued to Jarvis. Each discloses an auxiliary device for sighting including

means for rough and fine adjustments including adjustment knobs or screws.

Conclusion

19. The prior art made of record and not relied upon is considered pertinent to applicant's

disclosure. The prior art cited on form PTO-892 are cited as of interest to show similar devices

for targeting hunting or sports weapons.

20. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Troy Chambers whose telephone number is 571-272-6874 and

whose email address is troy.chambers@uspto.gov. The examiner can normally be reached on

M-F from 8 am to 4 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Michael J. Carone, can be reached on 571-272-6873. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
